Chris Lattner

#040

Creator of LLVM

Born: 1985 • USA

Known for: Developing the LLVM compiler infrastructure

SCOUTING REPORT

Chris Lattner is a pivotal figure in programming language design and compiler technology. His work on LLVM revolutionizes how software is compiled, while Swift has transformed iOS development, making it more accessible and efficient.

SIGNATURE PROJECTS

- LLVM
- Swift
- Clang

KEY CONTRIBUTIONS

- Invented LLVM compiler framework
- Developed Swift programming language
- Contributed to Clang project
