Graydon Hoare

#041

Creator of the Rust Language

Born: 1983 • Canada

Known for: Developing the Rust programming language

SCOUTING REPORT

Graydon Hoare is a prominent software engineer known for creating Rust. His work emphasizes safety and concurrency, making a significant impact on modern programming practices. He continues to influence the open source community.

SIGNATURE PROJECTS

- Rust
- Servo

KEY CONTRIBUTIONS

- Designed Rust programming language
- Contributed to Servo project
- Advocated for memory safety
